to my fcc official, I would like to respectfully urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the type of programming that I want, deserve and pay for . The traffic and weather channels are a godsend when driving/traveling accross our great country. What a wonderful technology.....it should be embraced and nurtured into something bigger and better. The entire programming package has no equal and should be expanded and respected as an unique outlet of the freedom of speech of all americans. Respectfully, Kevin Crane
